

# The Creative Cake baker

by Jacob Cutajar Grade 6.1

It was Queen Elizabeth's birthday. Teddy, the baker was preparing the cake for Queen Elizabeth and he wanted everything to be perfect.

Teddy was very clumsy. When he finished baking the cake it was beautiful with the Queen's favourite colours. When he went to place the cake on the table Teddy tripped. He knew he didn't have enough time to make a new one so he used the broken pieces to create tiny cakes in the shape of royal animals like dragons, unicorns and lions.

As soon as the Queen took a bite she loved it as much as everyone else around the dining table. "Who made this fantasy cake?" she asked. "I did," said Teddy. The Queen congratulated Teddy telling him he's the best chef in the kingdom.

What matters in life is not the mistakes we make but the ability to recognise them and correct them in a creative way.
