

Responsibility Reflection

What the child said

“I want our class to be neat so we can find things.”

“I’ll help make sure everything is tidy.”

Teacher observation

L takes it upon herself to ensure the classroom is organised so that everyone can find what they need easily. She carefully makes sure that the books are in order, the desks are tidy, and that both her own work and that of her friends is well arranged. By doing so, L demonstrates a clear understanding of how her actions contribute to a positive and well-functioning learning environment. She engages conscientiously in tasks that support her classmates and the classroom community, showing care, reliability, and initiative. L's responsible behaviour not only keeps the classroom orderly but also promotes a sense of shared respect, safety, and wellbeing for everyone.
